

# QUICKCHANGE™ SYSTEM

Changeover Options for Can Body, Can Height & Can End

## ADJUST YOUR CAN STYLE OPTIONS

*Shift easily between can formats and sizes with the Wild Goose QuickChange™ System for maximum canning flexibility.*

When you want to expand your can or end choices beyond the range offered on your Wild Goose canning system, the QuickChange System makes it simple. Choose the QuickChange arrangement that fits your production and beverage goals: can body, can height, end type, or any combination.

**ANY CAN BODY**

202 THROUGH 300

**ANY END TYPE**

200 THROUGH 209

### TIME-SAVING CHANGEOVER

Easily complete a full changeover of can body, can height and end type in less than 35 minutes

### PRODUCT DIFFERENTIATION

Shift between slim, sleek and standard can sizes and change up your end type to suit your beverage styles

### CONSISTENT FILLS & SEAMS

Rely on Wild Goose seam repeatability with consistent fill levels and low dissolved oxygen at any can size

# QUICKCHANGE™ SYSTEM

Changeover Options for Can Body, Can Height & Can End

QUICKCHANGE YOUR:

## CAN HEIGHT + END SIZE

Reliable, patented Wild Goose seamer technology provides the foundation for the QuickChange seamer, allowing easy transitions between **can heights** and **end types or sizes**.

### SUPERIOR REPEATABILITY

Seamer adjustment is maintained through can height and end size changeovers for reliable can seam integrity, cycle after cycle.

### SIMPLE QUICKCHANGE

Seamer changeover is entirely mechanical, with no electrical or pneumatic adjustments necessary. Easily accomplished by one person in 15 minutes, without lifting a heavy seamer or carrier bar.

Lid dropper changeover is easily accomplished by one person in 15 minutes.

QUICKCHANGE YOUR:

## CAN BODY DIAMETER

Wild Goose's patented purge and fill heads slide on the QuickChange track to accommodate a wide range of **can body diameters**.

### RELIABLE FILL LEVELS

Filler adjustment is maintained through can body changeovers for accurate and consistent CO2 purging and liquid dispensing.

### SIMPLE QUICKCHANGE

Changeover is accomplished by one person in 10 minutes, with no need to remove pneumatic or product tubing. Fill heads can be easily dismantled from the track to clean and maintain.

## AVAILABILITY

### NEW CANNING SYSTEMS

- Optional on all new Single-Lane Evolution Series™ canning systems
- Gosling™ canning system: Inquire about the Gosling QuickChange™

### CAN & END SIZES ACCOMMODATED

- Any can body from 202 through 200
